A SCHOOL PICNIC

This year Bilal school's Picnic for primary kids was destined to be at Ghoda Garden. Amusement parks have been popular and a good attraction for school picnics and family outings. These are more safe and hygienic. Hence these parks are given most priority by most of the schools in south mumbai. Admin department took prior permission for the picnic.

Excitements were seen among the school students the day before. Students were present in school by 7:45am. Instructions were given to the students well in advance. Teachers took attendance of the students, then set out for journey through bus. Duties and responsibilities were assigned among teachers and admin staff. Our honourable principal was supervising the whole event. They looked after the provisions and accommodations for the school trip.

It was a cold winter morning, the school buses departed at sharp 8:00am in the morning. Each bus had 4 to 5 teachers accompanying the students along with admin staff. As all the student sat down in the bus the teachers took the attendance of the students and ask them to recite dua of journey. School staffs were consistently looking after the needs and requirements of the students. Students were served snacks in the bus. Almost one hour long route to the garden felt like a matter of few minutes as they played fun games with fellow classmates. Students played various games, sang Naats and Hamds, recited poetries as well. Some had brought indoor games while some were playing quiz among their friends.

Bus reported to Ghoda Garden at around 9:00 am. When the student came down from the bus teachers took their attendance once again and made pair for entering the garden. They all headed to the

park, which they were all waiting for. Amusement and enjoyment: now it was time for the most exciting part of the picnic yes! it was their playing time. Students started playing lots of games in the garden, enjoyed joy rides, climbing iron bars, sea-saws, balancing beams, etc. There were many slides and swings for the children. Teachers and admin staff were constantly assisting kids for their safety. They were also instructed by the teachers not to go far and be alone.

Ghoda Garden is very safe for students because when the school students are in the garden citizens were not allowed in the garden. Secondly it has a safe spong flooring if while playing if any student fall down they don't get hurt. After playing student started feeling hungry they ate their tiffin. They were sharing their food with each others. Then they started playing again. They were not ready to come back because they get hardly chance to play with their friends. It was very difficult for teachers to collect them. They were asking the teachers to bring them back soon. All the teachers promised them that insha allah they will come next year.

When all the students set down their attendance was taken. Then they were asked to recite dua of journey. All the students were very tired but some students were excited to know about the places like Azad Maidan Chhatrapati Terminals, Mumbai Court and University. Teachers were providing information to the interest students.

Parents were waiting in the school to take their children. All the students were taken in the school compound once again their attendance was taken. Admin department was involved at the time of leaving because the students were very excited to tell their parents the fun and enjoyment they had. Tired but full of sweet memories every body went home Next day was declared holiday by the Chairman.
