The Annual function of my school is the happiest day. This day is celebrated with great show. Teachers and students are very happy on this day. The prize winning ceremony is the most important function of this day. The students who have distinguished themselves in various competitions are awarded prizes.

This year the Annual Day of our school was held at Sofia Auditorium. The planning of the function was done at the beginning of the year. Teachers were asked to bring their events and get it verified by the chairman. After finalising the event, the list of the props was made. Then the characters were allotted to the students. A file was prepared and kept ready for the function. Auditorium was booked by the school well in advance.

After the midterm instruction the teachers were instructed to complete their portion so that they get time for preparing students for the function. When the students were informed about the function they became very happy. Few students were upset because they had stage fear. They didn't want to come on stage. To remove the stage fear of students, each and every student had to participate. One month prior to the function, along with the studies the practice began. A day before the function, students were taken to the auditorium for practicing the rehearsal.

On the final day there was mixed feeling of excitement and fear among the students. All the students were present before the given time. The auditorium was full with parents and relatives of the students.
